DETAILED ACTION

Allowable Subject Matter

1. Claims 21-25 are allowed.
2. Claims 1-6 were previously withdrawn and have been cancelled in the amendment filed 06/28/2004. Claims 7-20 have been cancelled in the instant amendment filed 03/14/2005. Claims 21-25 have been previously indicated as allowed. Thus, the applicant has cancelled all rejected claims and only the allowed claims remain in the application.
3. The following is an examiner's statement of reasons for allowance: The examiner has already indicated the reasons for allowance in the previous office action. In regards to claims 21-25, the applicant recites ***calculating a location for each of a plurality of image portions of the extracted image data, on the pixel panel, wherein each location accounts for the angle of rotation***. Although rest of the claim limitations of claim 21 are similar to claims 7 and 14 above, the prior art of record do not teach using a plurality of image location to account for the angle of rotation, which allows the user to allocate proper memory location for calculating the angle of rotation and subsequent image manipulation. Thus the image processing system is able to execute in efficient manner.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
